Research Projects Event
Call for Extended Abstracts

Extended Abstract submission: May 14th, 2021

The FPL 2021 Research Projects event is suited for participants interested to disseminate their activities in a starting, ongoing or recently finished research project (e.g., national- or european-funded), which relates to topics within the scope of FPL. This event is an excellent occasion for presenting their research goals, activities, and results to the FPL community, as well as for receiving feedback and for initiating new research opportunities and collaborations.

Researchers that are interested in participating in the event with a presentation of their research project are invited to submit a short title and an extended abstract of their work before the deadline of May 14th, 2021. Prospective authors are invited to submit original and unpublished papers in IEEE double column format. The submitted papers in the Research Project Event are extended abstracts limited to 2 pages. Accepted papers have to be registered as ordinary papers and will appear in the proceedings. The proceedings will be made available online during the conference and will be submitted to IEEE Xplore.

Please send your extended abstracts by email the FPL 2021 Research Projects Event Chairs (**FPL2021-EU-Projects@esda-lab.gr**) with subject: "FPL2020 Research Project Event submission".

General Chair:

Diana Göhringer, TU Dresden, Germany

Program Co-Chairs:

Akash Kumar, TU Dresden, Germany

Georgios Keramidas, Aristotle University of Thessaloniki, Greece

Research Projects Event Chairs:

Nikolaos Voros, University of Peloponnese

Nikos Petrellis, University of Peloponnese
